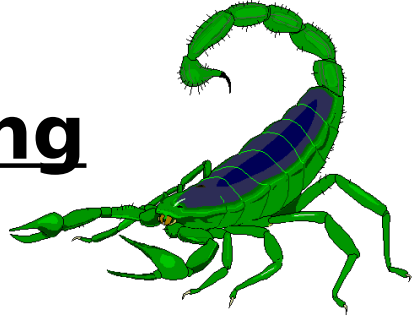
Radio Retransmission Planning (1 of 2)



The Retrans location:

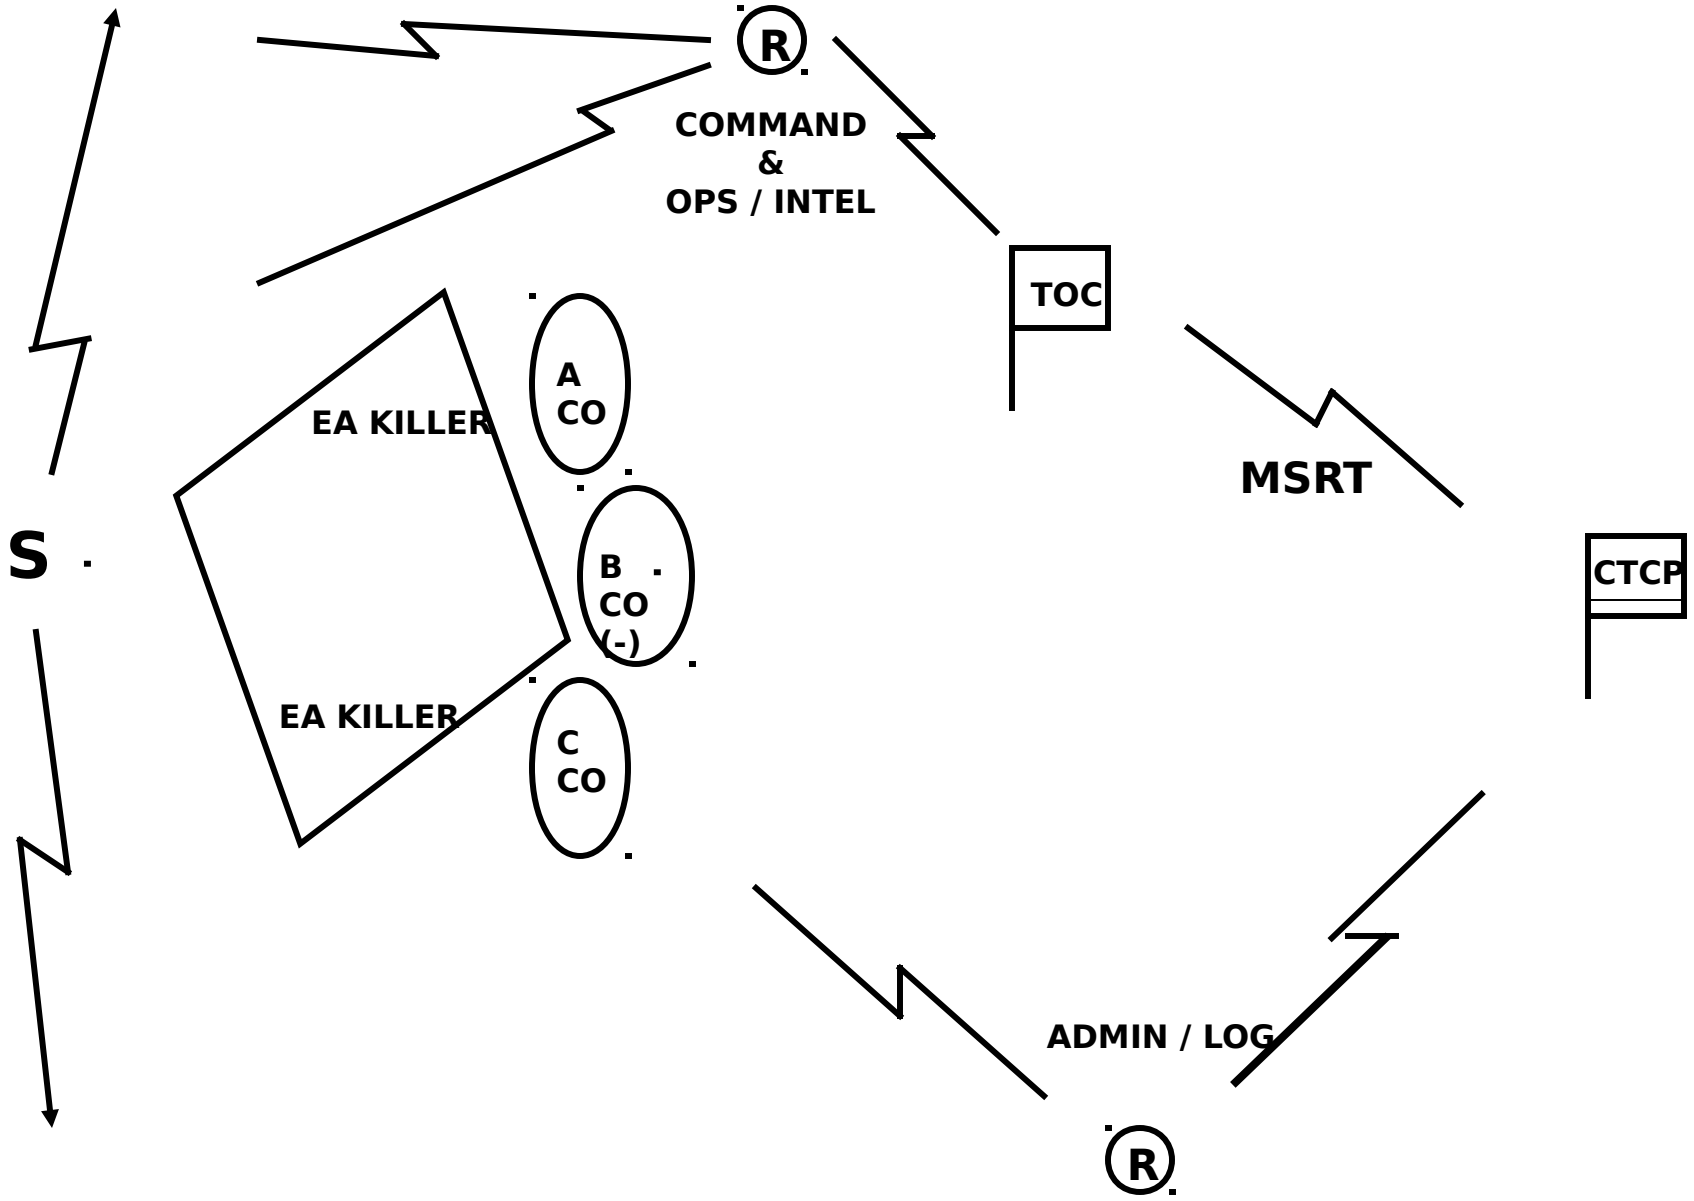
In The Defense:

Most preferable is behind the main defense, next p
is to the flanks of the main defense and least prefe
in the direction of the enemy

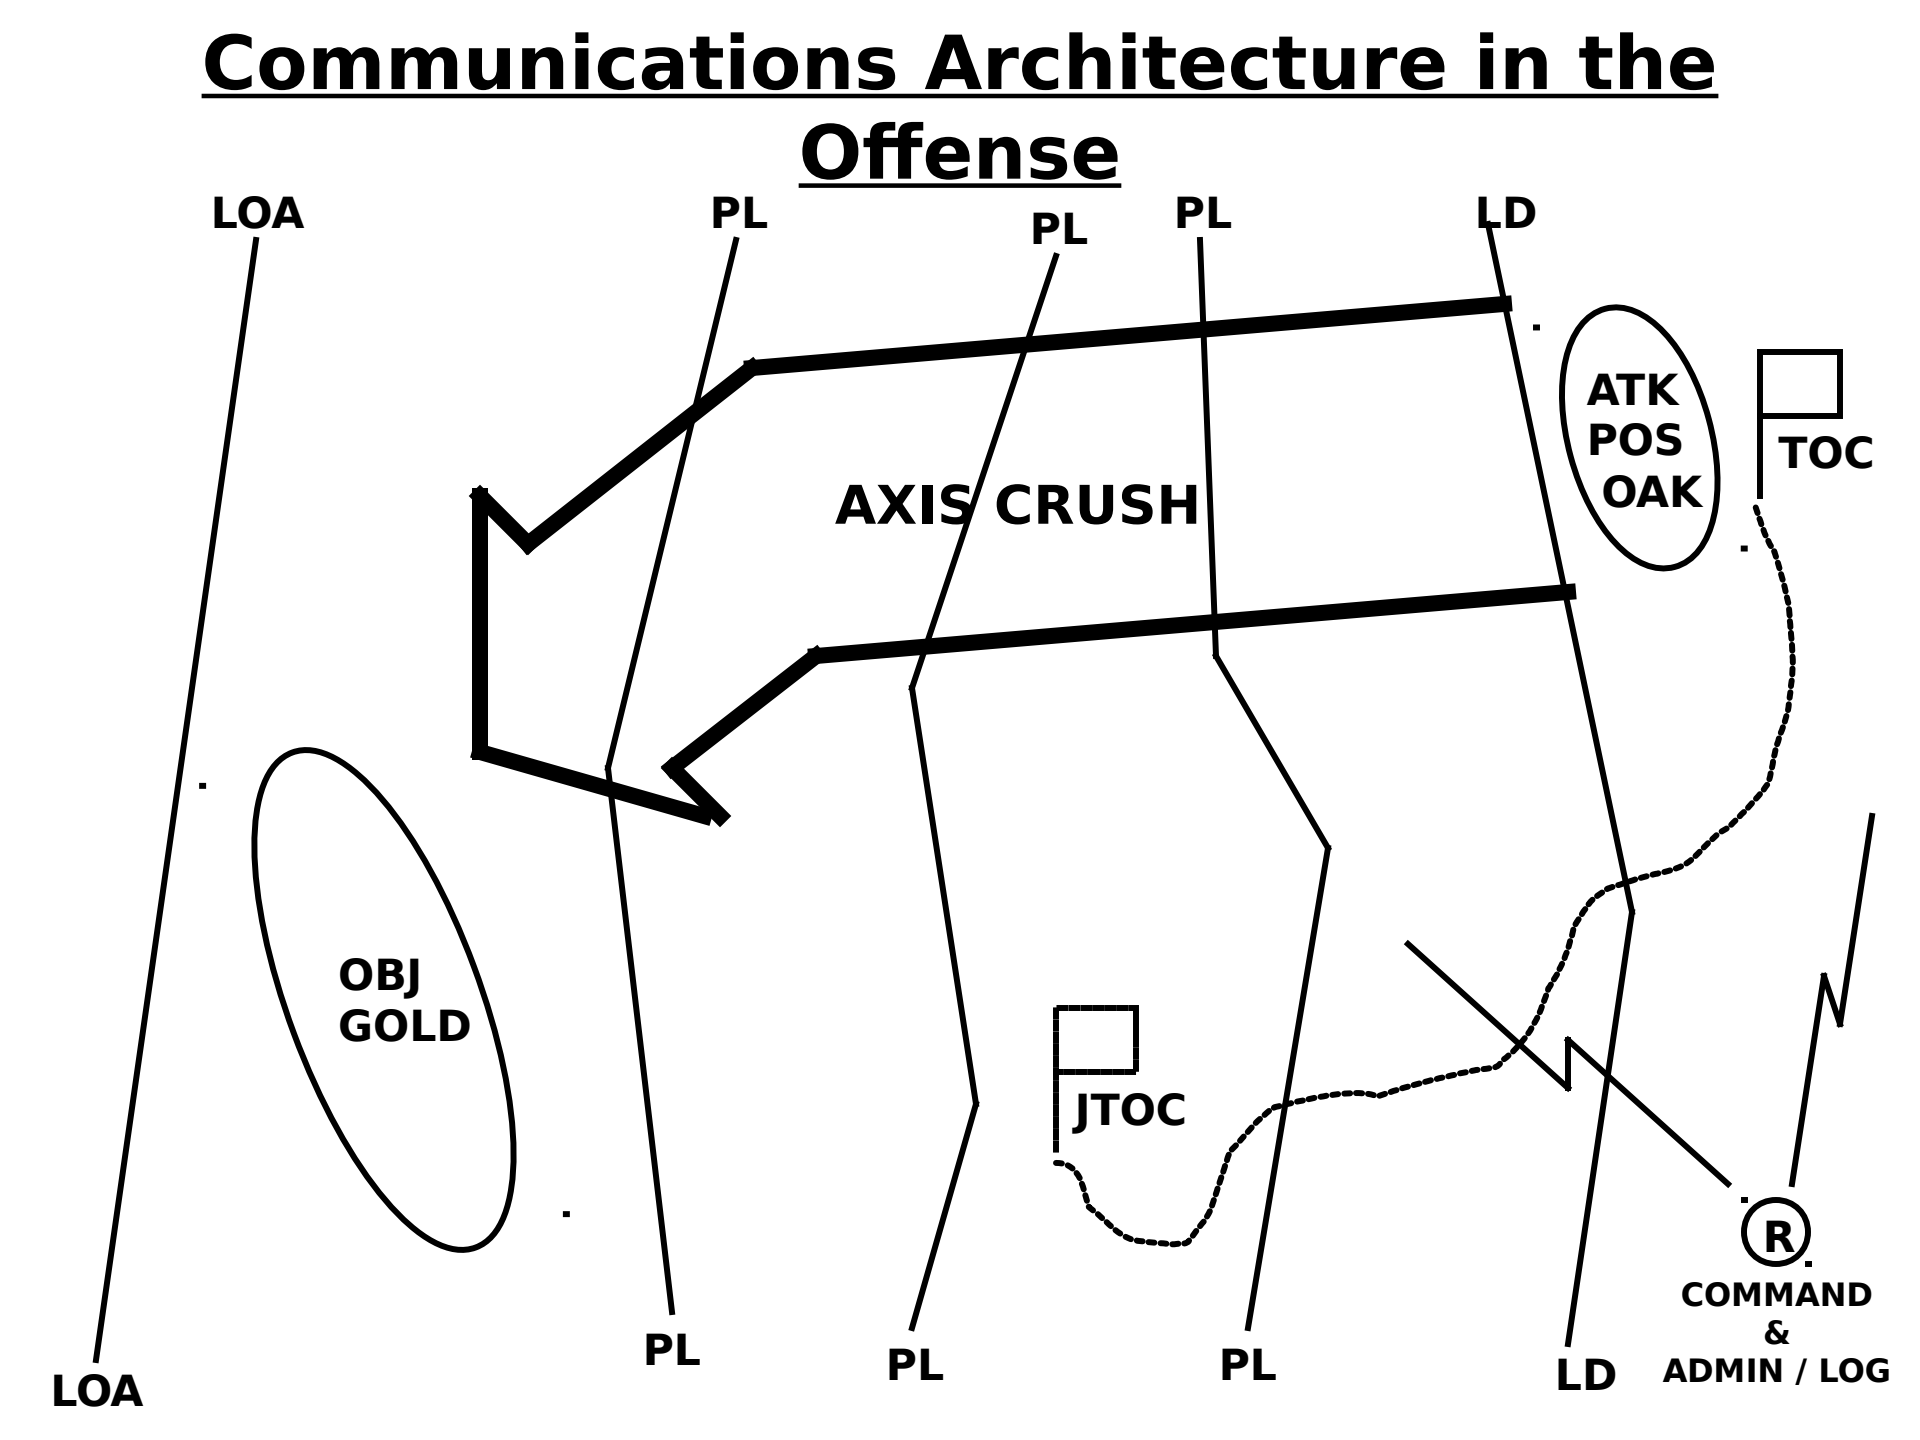
In The Offense:

Retrans stays behind maneuver forces, prepared to
forward as the battle progresses in phases

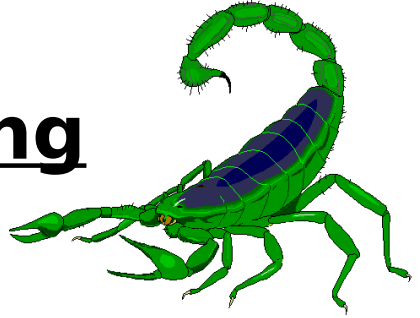
Communications Architecture in the Defense



Communications Architecture in the Offense



Radio Retransmission Planning (2 of 2)



The Retrans Plan:

Provide communications for priority radio nets based on assets available and commander's guidance

Command Net: Provide communications from Battalion Commander to Company commanders and Battalion TOC

Operations/Intel Net: Provide communications from the Intel Section to the Recon/C-Recon forces

Admin/Log Net: Provide communications from CTCP to Company XO's and First Sergeants for emergency resupply and casualty evacuation

Fire Support Net: Provide communications from the FSE to FIST Teams

FM 11-50: Combat Communications within the Division (HVY/LT)
